

The Priory Primary School – Dip And Do Home Learning

Get Electronic:

Learn to play an electronic game that someone in your family regularly plays. It could be a game that your parents like to play on their phone or that your brother or sister like to play on an ipad or another device. Just make sure it is age -appropriate.

Get Researching:

What birds visit your garden? This may help you to identify them:

https://www.rspb.org.uk/globalassets/downloads/biggardenbirdwatch/2021/how-to-resources/eng_id-print_at_home--min.pdf

Get Experimenting:

Every night, our gardens become a hive of activity with nocturnal animals. Set up an experiment to identify what visits your garden. Perhaps you'll leave out hedgehog food, or a camera to capture the events of the night.

Get Cooking:

Learn to cook your favourite meal. We all have our favourite dinners that our parents or grandparents will always cook for us. Now is your turn to learn how to make it for yourself!

Get Writing:

Imagine you are an insect in your garden. You watch your family playing, gardening, eating in the garden. What do you notice? What do you think of them? How does what they do impact on you and your life? Write from an insect's point of view. It could be a story, poem or diary entry – what you write is up to you!

What's Out There?

- How do you know what is right in front of you?

Get Mathematical:

Collect data about your family. It could be how much sleep everyone gets or how long they spend in the shower, everyone's favourite food, colour, pizza topping. Create a table to collect your data and display your results in a graph or chart. What do you learn about your family?

Get Thinking:

What would our lives be like if we removed our garden fences and spent more time with our neighbours? Do you know the names of your neighbours? Could you speak with them more often?

Get Creative:

We all have windows in our houses but do you ever take the time to look, really look out of them? Draw the view from your window. It could be any window in your house, and you can use any media to create it.

Get Active:

Find a new route to walk, jog, cycle. You could explore a local forest, take a completely different route that you haven't taken before. What new things do you discover that you didn't know was there?

Get Performing:

You all have such fantastic imaginations but are you aware of your own talents? Create your own act for your family and friends to enjoy. You could do a puppet show, dance routine, song, poem. The choice is yours.

Year 5 – SUMMER 2 Term - DIP INTO THE ACTIVITIES ABOVE WITH YOUR CHILD. YOU DON'T HAVE TO DO THEM ALL! YOUR CHILD CAN PRESENT THEIR LEARNING IN A WAY THAT THEY WOULD LIKE (BE IMAGINATIVE!) AND BRING IT INTO SCHOOL AS THEY COMPLETE IT TO SHARE WITH THEIR CLASS. ALL ACTIVITIES ARE OPTIONAL.
