Year R Newsletter: 19<sup>th</sup> November 2021

## What have we been learning about in Year R this week?

In Literacy, the children have been busy changing the story of 'Augustus and His Smile' and have been thinking about what things make them smile. They have created their own story maps of their own story of the journeys they would travel on to find their smile.

In Maths, the children have been busy counting, recognising and ordering numbers to 20.

The children have been learning about the importance of brushing our teeth this week. They practised brushing some giant teeth with a giant toothbrush. The children have really enjoyed this activity. We have also been discussing the importance of looking after our teeth. The children will be bringing home a diary to fill in for the number of times they brush their teeth over the next few weeks. Please could your child bring in their completed form once they have finished. We will be giving out house points for completed sheets!

There has been lots going on this week in school with photos for school calendar and the week finishing with the panto. The children have all had a lovely time watching the panto.

We have started our practise of our nativity and have been learning the songs. You may or may not have heard them singing (or humming) these songs. They are very catchy!

We thank you for your efforts in providing us with empty (unlabelled) wine bottles this week in preparation for the Year R enterprise cup. We will be selling 'light up wine bottles'. The children (and adults) are very impressed with the outcome of these gifts. We are hoping they will be very popular. Please continue to bring in your empty wine bottles, with labels removed. Many thanks to Oscar Price's mum for organising this for us.

## Next week:

In Literacy the children will be exploring books and computers to find out different facts about tigers. We will also be writing down some of these facts.

In Maths we will be focusing on the numbers 4 and 5. We will be looking at counting up to 5 objects and matching numerals to the quantities.

Have a lovely weekend.

The Year R team
