Year R Newsletter: 8th July 2022

What have we been learning about in Year R this week?

The children have enjoyed sharing their favourite memories of being in Year R. They spoke in small groups and also completed some writing about their chosen memory. It has been lovely listening to all of the children's memories over the year right back to their first visit to the Year R outside area while the parents were on the field.

In Maths the children have been completing some problem solving activities such as looking at a boat that had 8 legs in. The children needed to work out how many dogs would be on the boat or how many people could be on the boat.

We have also been practising to read phase 4 tricky words and playing some phonics games to read words with a digraph/trigraph in.

The children were also very interested in dinosaurs at the beginning of the week so we have had dinosaurs, bones and fossils out to explore. We have also been completing some other dinosaur activities like dinosaur adding, dinosaur printing and making dinosaurs using the 2D shapes.

Next week:

It is Sports and Fitness week so the children will be busy taking part in different sporting activities, including Sports Day and picnic on Thursday. We hope to see many of you there.

The children will also be taking part in the move up mornings where they will spend their time in Year 1 on Tuesday and Wednesday mornings. We are sure the children will have a great time being in their new classrooms and meeting their new teachers.

We are looking for some useful resources for our outside area and wondered if we could ask for your help. We would like to get some plastic guttering and plastic crates (like the ones in the picture). Please could you speak to us if you have any or know anywhere we could get some. Thanks.

Have a lovely weekend.

The Year R team
