6th September 2020

Dear Parents,

To fully prepare for Monday, we have maximised the number of lanes on the rear playground to allow more space for the drop and go and hopefully less need to queue outside of the school grounds. This in addition to the suggested contraflow, should make the system as effective as possible. Although please be patient on the first few days as it will take time for everyone to get used to the process.

Because of the increased flow of cars in the rear car park - we have now determined that it would be unsafe for bicycles to cycle into the playground. Therefore, if you are cycling your children to school, please can you drop off the children in the staff car park (next to the rear playground). Bikes being left at school can be left / locked against the metal fence next to the playground, on the carpark side of the fence. The outer gate will be closed and locked to ensure the bikes safety.

The small side gate will be open, so once cyclists have dismounted - you can walk your children along the right side of the playground and down to the waiting staff members.

We hope that these steps will allow the drop off and collection process to be as smooth as possible.

Kind regards

M. Stewart

Headteacher
