

The Priory Primary School – Dip and Do Home Learning

Get Electronic:

Astronauts and engineers are often viewed as pioneers and heroes and many work on the International Space Station. Please visit [International Space Station Tour | NASA](#) where you can have a tour around the station and learn more about it and [Live Space Station Tracking Map | Spot The Station | NASA](#) where you can track where the station currently is and how long it will be until you can see it (clouds permitting!)

Get Researching:

Who are your celebrity heroes? Why do you view them as hero? How do they inspire you? I would like you to research the life and achievements of somebody you view as a hero and create a wonderful information poster all about them to help inspire others. Marcus Rashford is a brilliant example for this! 😊

Get Experimenting:

Isaac Newton and Galileo are two very famous scientific heroes that completely changed the way people saw the world around them! Have a look at <https://www.science-sparks.com/gravity-experiments-for-kids-galileo/> where you can find out more about their discoveries and have a go at re-creating some of their work at home! Have fun with this one 😊

Get Cooking:

Soldiers in the Army need to have excellent, healthy and nutritious food to keep their energy going throughout the day. Please visit <https://www.army.mod.uk/people/live-well/healthy-soldier-cookbook/> where you can download an amazing free cookbook that the British Army has created to help you eat as healthily as a soldier! Have a go at creating some of the recipes that take your fancy!

Get Writing:

All of us should think about the heroes that we have in our own day to day life. Who are yours? It could be Mum, Dad, Grandparents, a staff member at school, a friend or someone else entirely. I would like you to write a letter of thanks to thank your hero/heroes for everything they do for you and why they mean so much to you. The everyday heroes are always the ones who go unnoticed but on who we rely so much!

The Spark of Heroes

How Do Heroes Emerge?

Get Mathematical:

Pythagoras is one of the most famous mathematicians of all time and is seen as a hero in his field. He created a theorem all to do with triangles. Please visit [Activity: Pythagoras' Theorem \(mathsisfun.com\)](#) to have a go at proving his theory and understanding how it works 😊

Get Thinking:

Key Workers have been celebrated as heroes during the COVID pandemic we have all been living through. I would like you to consider the role they have played and your thoughts about them. You can display your thoughts and opinions however you feel suitable 😊.

Get Creative:

Lots of famous people have been called heroes and for many it is a worthy title. I would like you to research some of the most famous heroes (not Marvel or DC!) and create a beautiful mural celebrating these incredible people. I am sure your parents wouldn't want your art to necessarily be painted onto their walls so perhaps you could use chalk and sketch it onto your patio. Perhaps you could create your mural on an easel or a large piece of paper or think of an entirely different method.

Get Active:

Many people believe that members of the armed forces are national heroes. Every soldier needs to be extremely fit and healthy to do the best job possible. Have a look at <https://www.youtube.com/watch?v=7Nv9i2FhuMw> and have a go at this army workout that has been designed for children to follow 😊

Get Performing:

Live Aid was a huge concert that was performed by many famous musicians in the hope of raising millions of pounds to help people all around the world in 1985. It was a global phenomenon and many of the people who helped organise the event and played the event are now called heroes. I would like you to research and listen to some of the music from the concert and then see if you can put on your own performance to their world-famous songs! I recommend you listening to Queen's section-what a performance from Freddie!

Year 4 – Summer Term 1 - DIP INTO THE ACTIVITIES ABOVE WITH YOUR CHILD. YOU DON'T HAVE TO DO THEM ALL! YOUR CHILD CAN PRESENT THEIR LEARNING IN A WAY THAT THEY WOULD LIKE (BE IMAGINATIVE!) AND BRING IT INTO SCHOOL AS THEY COMPLETE IT TO SHARE WITH THEIR CLASS. ALL ACTIVITIES ARE OPTIONAL.
