

# SHAPE

## Learning Journey

	Learning Objectives	Ongoing Assessment			
		Target	Some	Good	Exceed
1	To understand and use degrees.				
2	To classify angles.				
3	To estimate angles.				
4	To measure angles up to $180^\circ$ .				
5	To draw lines and angles accurately.				
6	To calculate angles around a point.				
7	To calculate angles on a straight line.				
8	To explore different strategies for calculating missing lengths and angles in shapes.				
9	To explore regular and irregular polygons.				
10	To explore the properties of 3D shapes.
